

RISK ASSESSMENT

Assessment title:	Bucklers Hard Village		
Date of risk assessment:	19/06/25	Risk assessment carried out by:	Lewis Morgan

Likelihood: how likely is it that the harm presented by the hazard will actually occur?	Severity: what impact or damage could the harm presented by the hazard have on a person or persons?
High (3): Harm is certain, or near certain, to occur	High (3): Death or major injury
Medium (2): Harm will often occur	Medium (2): 7-day injury or illness
Low (1): Harm will seldom occur	Low (1): All other injuries or illnesses

Risk rating: Once the likelihood and severity have been determined, the risk can be calculated as shown below:				
		Likelihood		
		3	2	1
Severity	3	High	High	Medium
	2	High	High	Medium
	1	Low	Low	Low

The Management of Health & Safety at Work Regulations 1999 places a legal duty on employers to carry out risk assessments, and to make a written record if there are more than 5 employees.

RISK ASSESSMENT

Haz No	Significant Hazards Look only for hazards which you could reasonably expect to result in significant harm	People affected	Risk rating L x S = R			Control measures e.g. physical safeguards, training, PPE etc	Residual risk rating L x S = R		
			L	S	R		L	S	R
1	Open water – tidal river.	Any persons within group.	1	2	M	<ul style="list-style-type: none"> No unsupervised access to the water or areas near it. Visits are scheduled to not take place during spring tides when paths may be flooded. 	1	1	L
2	Interaction with members of the public.	Children in group.	1	1	L	<ul style="list-style-type: none"> Children are supervised by school staff and led by member of the education team. Head counts after activities and toilet breaks. Visits take place during quiet periods – mid week and during school term time. 	1	1	L
4	Vehicles.	Any persons within group.	1	3	H	<ul style="list-style-type: none"> Groups are led through car park by teachers or a member of the education team after drop off. Children are given boundaries during lunchtime which exclude the road into the village. 	1	2	M
